“Our Find Your Shadow trip was out of this world. Initially the kids felt a little self-conscious like normal but as the fun began, they got so sidetracked by the excitement and thrills of being on our sun proof vacation at Disney. Our VIP tour guide was very conscientious of the kids’ EPP. He kept them in the shade and had UV protective umbrellas to keep them blocked when walking about. He was so considerate, fun and knowledge. He absolutely made the experience something we will never forget. Shadow Jumpers put us in a suite in Animal Kingdom so we could watch the animals from our balcony (and more importantly, in the shade and out of the afternoon sun.”

“Thank you so much to Shadow Jumpers for helping us re-do our Disney trip a few years ago when our daughter Morgan got a terrible reaction. Their knowledge of where to stay, what to wear and how to balance out our days really made this the safest (and most fun) vacation we have had. The tour guide they set us up with was knowledgeable about our EPP and took us through so many different ways around the park to combat the sun. The resort they picked for us was with EPP in mind, having a late-night water park that our kids happily took advantage of. As we shadow jumped over the course of our long weekend, we even got help in the form of perfect rainy weather here and there. We’re so excited to see who Shadow Jumpers helps next!”

#### WHO IS ELIGIBLE

All children and their families in the USA suffering from Erythropoietic Protoporphria between the child ages of 5-17. Shadow Jumpers is dedicated to making EPP families adventures come true.

This year’s Find Your Shadow Program will be selecting kids who are attempting to do something they have always wanted in the Sun! Nothing is off limits as we ask EPP families to submit their story and tell us how we can help make a memory, re-do a failed attempt outside or improve your day to day!

Shadow Jumpers is hopeful that, by finding creative ways to help kids and their families take on their wildest sunlight adventures, we can create a significant positive impact on a child and their family.
